

HTML Self Test

TGJ 3M4M

Teacher: Mr. Bruce

Write a ***complete*** web page that will conform to the following design. You may use your booklet to help with the statements you will need. Look closely so that you include **all** necessary formatting.

Note: Link pages do not have to be written but the school link should work. (i.e. cobourgast.kprdsb.ca).

Web Site Name

Official Student Website for Cobourg East

Last Updated: Sept 17, 2009

Links

1. [School Main Page](#)
2. [Sports](#)
3. [Clubs](#)
4. [Events](#)
5. [Student Life](#)

The (Website Name) is the official web site created by students for students of CDCI East. Anyone interested in making contributions to the site may attend meetings Wednesdays at lunch in Room 124.

BEWARE THE BEAST

Create your program using the computer. Marked according to rubric below.

	Level 4 (80-100%)	Level 3 (70-80%)	Level 2 (60-70%)	Level 1 (50-60%)
Knowledge/Thinking Navigation/Links	Links are created correctly.	Links are consistent but do not conform to specifications.	Link coding exists but contains some errors.	Link coding is incorrect.
Knowledge/Thinking Font	Fonts applied as specified.	Fonts mostly applied as specified.	Fonts are changed but lack accuracy.	Fonts are inaccurate or not changed.
Knowledge/Thinking Graphics	The images, are placed accurately and coding matches requirements exactly.	The image coding is mostly accurate but positioning is not exact.	Images are incorporated but coding or placement is incorrect.	Image not incorporated or coding is inaccurate.
Knowledge/Thinking Information	Information is placed exactly as specified in sample.	Information is placed in a fashion similar to that specified.	Information could be better placed to match specifications.	Information is poorly placed.
Knowledge/Thinking Table/List Skills	Table/list is incorporated exactly as specified.	Table is coded but may contain some errors.	Tables exist but have errors or does not conform to design.	Table is not coded or is very inaccurate.
<i>Total Knowledge</i>	<i>Excellent</i> <i>Tags are written to conform to design.</i>	<i>Very Good</i> <i>Tags are coded but do not match specifications</i>	<i>Satisfactory</i> <i>Several errors in tags but page is usable</i>	<i>Poor</i> <i>Many errors. Page will lack many of elements.</i>
<i>Total Thinking</i>	<i>Excellent</i>	<i>Very Good</i>	<i>Satisfactory</i>	<i>Poor</i>
